Fourth Quarter 2020 Financial Results

¹ For more information on the non-GAAP financial measures, see the section entitled “Use of Non-GAAP Financial Measures” below and the table captioned “Reconciliation of GAAP And Non-GAAP Results” set forth at the end of this press release.

² “MAUs” refers to the number of unique mobile devices that accessed our relevant mobile application in a given month. “Combined average MAUs” for a particular period is the average of the MAUs for all of our mobile applications in each month during that period;

³ “DAUs” refers to the number of unique mobile devices that accessed our relevant mobile application on a given day. “Combined average DAUs” for a particular period is the average of the DAUs for all of our mobile applications on each day during that period;

Net revenues in the fourth quarter of 2020 were RMB1,302.4 million (US\$199.6 million), a decrease of 21.5% from RMB1,658.4 million in the fourth quarter of 2019, and an increase of 15.3% from RMB1,130 million in the previous quarter.

Advertising and marketing revenues were RMB1,241.9 million (US\$190.3 million) in the fourth quarter of 2020, a decrease of 21.8% from RMB1,588.5 million in the fourth quarter of 2019, primarily due to the Company's strategy to prioritise optimizing operational efficiency and financial health. We have paid closer attention to the quality and the profile of our user base, rather than the absolute size or growth of it. As a result, we have generated better profitability and cash flows despite the comparatively reduced revenue base.

Other revenues were RMB60.5 million (US\$9.3 million) in the fourth quarter of 2020, a decrease of 13.5% from RMB69.9 million in the fourth quarter of 2019. The decrease was primarily due to the decrease in revenues from live-streaming and online games.

Cost of revenues were RMB441.7 million (US\$67.7 million) in the fourth quarter of 2020, a decrease of 12.3% from RMB503.9 million in the fourth quarter of 2019, primarily attributable to the decreases in bandwidth, IT infrastructure costs, and salaries and benefits associated with content management personnel; the decrease was partially offset by an increase in content procurement costs due to the Company's ongoing investment in improving content quality.

Gross profit was RMB860.7 million (US\$131.9 million) in the fourth quarter of 2020, a decrease of 25.4% from RMB1,154.5 million in the fourth quarter of 2019. **Gross margin** was 66.1%, compared to 69.6% in the fourth quarter of 2019. The decrease of gross margin was mainly due to the increase in content procurement costs.

Research and development expenses were RMB199.7 million (US\$30.6 million) in the fourth quarter of 2020, a decrease of 30.6% from RMB287.9 million in the fourth quarter of 2019 primarily due to a reduction in overall research and development headcount.

Sales and marketing expenses were RMB680.3 million (US\$104.3 million) in the fourth quarter of 2020, a decrease of 50.3% from RMB1,367.7 million in the fourth quarter of 2019. Sales and marketing expenses as a percentage of net revenues were 52.2% in the fourth quarter of 2020, compared to 82.5% in the fourth quarter of 2019 and 62.1% in the third quarter of 2020.

User engagement expenses were RMB163.2 million (US\$25.0 million) in the fourth quarter of 2020, compared to RMB571.4 million in the fourth quarter of 2019, a decrease of 71.4% year-over-year and a decrease of 38.3% quarter-over-quarter. User engagement expenses per DAU per day were RMB0.05 in the fourth quarter of 2020, compared to RMB0.14 in the fourth quarter of 2019 and RMB0.07 in the third quarter of 2019. The decrease of user engagement expenses was primarily due to the Company's ongoing efforts in optimizing user engagement expenses for its loyalty program, as well as the enhanced content algorithm facilitated by the Company's AI platform that aims to match the content much more precisely with users' personalized needs.

User acquisition expenses were RMB397.1 million (US\$60.9 million) in the fourth quarter of 2020, a decrease of 41.7% year-over-year and a slight increase of 2.9% quarter-over-quarter. User acquisition expenses consist of the costs of both word-of-mouth referrals and third-party marketing. The year-over-year decrease was mainly due to a decrease in the cost of word-of-mouth referrals and the Company's more efficient spending in third-party channels; the quarter-over-over increase was primarily due to the growing investment in Midu Novels' user base. User acquisition expenses per new

installed user⁴ in the fourth quarter of 2020 were RMB7.89, compared to RMB5.73 in the third quarter of 2020 and RMB5.54 in the fourth quarter of 2019.

Other sales and marketing expenses were RMB119.9 million (US\$18.4 million) in the fourth quarter of 2020, slightly increased 3.9% year-over-year from RMB115.5 million in the fourth quarter of 2019.

General and administrative expenses were RMB94.4 million (US\$14.5 million) in the fourth quarter of 2020, an increase of 51.3% from RMB62.4 million in the fourth quarter of 2019, mainly due to an increase share-based compensation as the Company keeps incentivising its loyal employees.

Loss from operations was RMB90.1 million (US\$13.8 million) in the fourth quarter of 2020, compared to RMB555.8 million in the fourth quarter of 2019. **Operating loss margin** was 6.9%, compared to 33.5% in the fourth quarter of 2019.

Non-GAAP profit from operations was RMB42.5 million (US\$6.5 million) in the fourth quarter of 2020, compared to a non-GAAP loss from operations of RMB474.6 million in the fourth quarter of 2019. **Non-GAAP operating profit margin** was 3.3%, compared to non-GAAP operating loss margin of 28.6% in the fourth quarter of 2019.

Net loss was RMB81.8 million (US\$12.5 million), compared to net loss of RMB551.4 million in the fourth quarter of 2019. **Net loss margin** was 6.3%, compared to 33.2% in the fourth quarter of 2019.

Non-GAAP net profit was RMB50.8 million (US\$7.8 million), compared to non-GAAP net loss of RMB470.2 million in the fourth quarter of 2019. **Non-GAAP net profit margin** was 3.9%, compared to a Non-GAAP loss margin of 28.4% in the fourth quarter of 2019.

Net loss attributable to Qutoutiao Inc.'s ordinary shareholders was RMB78.7 million (US\$12.1 million) in the fourth quarter of 2020, compared to RMB562.8 million in the fourth quarter of 2019.

Non-GAAP net profit attributable to Qutoutiao Inc.'s ordinary shareholders was RMB54.0 million (US\$8.3 million) in the fourth quarter of 2020, compared to a Non-GAAP net loss attributable to Qutoutiao Inc.'s ordinary shareholders was RMB481.7 million in the fourth quarter of 2019.

Basic and diluted net loss per American Depositary Share (“ADS”) was RMB0.26 (US\$0.04) in the fourth quarter of 2020. **Non-GAAP basic and diluted net profit per ADS** was RMB0.18 (US\$0.03) in the fourth quarter of 2020. Each four ADSs represent one Class A ordinary share of the Company.

Balance Sheet

As of December 31, 2020, the Company had cash, cash equivalents, restricted cash and short-term investments of RMB985.8 million (US\$151.1 million), compared to RMB514.2 million as of September 30, 2020. The increase in cash, cash equivalents, restricted cash and short-term investments was primarily due to a new round of financing for one of our subsidiaries. Cash flow generated from operating activities during the fourth quarter of 2020 was RMB39.3 million.

⁴ “New installed user” refers to the aggregate number of unique mobile devices that have downloaded and launched our relevant mobile applications at least once.

While the Company's liquidity position has been improved compared to the prior quarter, the Convertible Loan which the Company issued to Alibaba in March 2019, with principal amounting to US\$171.1 million will mature on April 4, 2022.

Fiscal Year 2020 Financial Results

Net revenues in the fiscal year of 2020 were RMB5,285.2 million (US\$810.0 million), a decrease of 5.1% from RMB5,570.1 million in the fiscal year of 2019.

Advertising and marketing revenues were RMB5,046.8 million (US\$773.5 million) in the fiscal year of 2020, a slight decrease of 6.8% from RMB5,415.3 million in the prior year, primarily due to the Company's strategy to balance operational efficiency and sustainable growth.

Other revenues were RMB238.4 million (US\$36.5 million) in the fiscal year of 2020, an increase of 54.0% from RMB154.8 million in the fiscal year of 2019, primarily due to the increase of revenues from live-streaming, and, to a lesser extent, revenues from Midu's membership services and online game services.

Cost of revenues was RMB1,674.4 million (US\$256.6 million) in the fiscal year of 2020, a slight increase of 2.1% from RMB1,640.6 million in the fiscal year of 2019, primarily attributable to increases in content procurement costs and costs related to revenue-sharing arrangements with content providers such as game developers; the increase was partially offset by the decreases in bandwidth and IT infrastructure costs, salaries and benefits associated with content management personnel.

Gross profit was RMB3,610.8 million (US\$553.4 million) in the fiscal year of 2020, a decrease of 8.1% from RMB3,929.4 million in the prior year. **Gross margin** was 68.3%, compared to 70.5% in the fiscal year of 2019.

Research and development expenses were RMB947.9 million (US\$145.3 million) in the fiscal year of 2020, a slight increase of 2.3% from RMB926.2 million in the prior year, primarily due to the increase in share-based compensation while partially offset by the decrease in salaries and benefits.

Sales and marketing expenses were RMB3,381.6 million (US\$518.2 million) in the fiscal year of 2020, a decrease of 38.4% from RMB5,489.7 million in the fiscal year of 2019, primarily due to decreases in user acquisition expenses and user engagement expenses, as the Company continuously optimizes its loyalty program and traffic acquisition strategy.

General and administrative expenses were RMB392.8 million (US\$60.2 million) in the fiscal year of 2020, an increase of 47.1% from RMB267.0 million in the fiscal year of 2019. The increase was mainly due to the the increase in bad-debt provision for account receivables as we adopted *ASC-326, Measurement of Credit Losses on Financial Instruments*, effective January 1, 2020; and, to a less extent, the increase in share-based compensations.

Loss from operations was RMB1,032.2 million (US\$158.2 million), compared to RMB2,723.2 million in the fiscal year of 2019. **Operating loss margin** was 19.5%, compared to 48.9% in the fiscal year of 2019. Loss from operations has been significantly narrowed due to the Company's endeavors in improving operational efficiency as well as sustainable growth.

Non-GAAP loss from operations was RMB569.0 million (US\$87.2million), compared to RMB2,451.3 million in the fiscal year of 2019. **Non-GAAP operating loss margin** was 10.8%, compared to non-GAAP operating loss margin of 44.0% in the fiscal year of 2019.

Net loss was RMB1,105.2 million (US\$169.4 million) in the fiscal year of 2020, compared to a net loss of RMB2,689.3 million in the fiscal year of 2019. **Net loss margin** was 20.9%, compared to 48.3% in the fiscal year of 2019.

Non-GAAP net loss was RMB642.0 million (US\$98.4 million), compared to Non-GAAP net loss of RMB2,417.3 million in the fiscal year of 2019. **Non-GAAP net loss margin** was 12.1%, compared to 43.4% in the fiscal year of 2019.

Net loss attributable to Qutoutiao Inc.'s ordinary shareholders was RMB1,137.9 million (US\$174.4 million), compared to RMB2,709.2 million in the fiscal year of 2019.

Non-GAAP net loss attributable to Qutoutiao Inc.'s ordinary shareholders was RMB674.7 million (US\$103.4 million), compared to RMB2,437.3 million in the fiscal year of 2019.

Recent Developments

Qutoutiao's subsidiary holding the operations of Midu Novels and Midu Lite (collectively, "Midu") entered into definitive agreements with certain unaffiliated investors (the "Investors") in December, 2020. Pursuant to these agreements, the Investors agreed to invest a total of around USD110 million into Midu. The transaction will be phased and we expect the deal to be fully completed in the second half of 2021. We will continue to be the controlling shareholder of Midu after the completion of the transaction.

Use of Non-GAAP Financial Measures

We use non-GAAP profit or loss from operations, non-GAAP operating profit or loss margin, non-GAAP net profit loss, non-GAAP net profit or loss margin, non-GAAP net profit or loss attributable to Qutoutiao Inc.'s ordinary shareholders and non-GAAP basic and diluted net profit or loss per ADS, which are non-GAAP financial measures, in evaluating our operating results and for financial and operational decision-making purposes. Each of these non-GAAP financial measures represents the corresponding GAAP financial measure before share-based compensation expenses. We believe that such non-GAAP financial measures help identify underlying trends in our business that could otherwise be distorted by the effect of such share-based compensation expenses that we include in cost of revenues, total operating expenses and net loss. We believe that all such non-GAAP financial measures also provide useful information about our operating results, enhance the overall understanding of our past performance and future prospects and allow for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. They should not be considered in isolation or construed as alternatives to net loss or any other measure of performance prepared in accordance with U.S. GAAP or as an indicator of our operating performance. We mitigate these limitations by reconciling the non-GAAP financial measures to the most comparable U.S. GAAP performance measures, all of which should be considered when evaluating our performance. For more information on these non-GAAP financial measures, please see the table captioned “Reconciliations of GAAP and Non-GAAP Results” set forth at the end of this press release.
